About SF's Teaching With Science Fiction Workshop

This is a workshop to prepare teachers to use science fiction in classes for primary or secondary students, or to develop a class on science fiction. The Teaching With Science Fiction Workshop is designed to provide insights into science fiction and the different ways it can be used effectively in a classroom setting. The Workshop answers questions educators may have about this idea-oriented, forward-looking, student stimulating body of speculative literature. This year's workshop features two teachers with experience in introducing science fiction within a classroom setting, Magi D. Shepley and Christopher Doody. Also, John Ashmead will reprise his discussion session from the 2009 Workshop. Additionally, attendees will be provided with resource materials for science fiction that have been developed by the AboutSF Science Fiction Resource Center, a joint project of the University of Kansas, the Science Fiction and Fantasy Writers of America, and the Science Fiction Research Association.

WEAPONS POLICY

All weapons, including but not limited to all swords, knives and replicas, projectile weapons including nerf toys and waterguns, must be peace bonded by designated convention personnel immediately upon the purchase of the weapon from a dealer or entering the hotel. It is your responsibility to be aware of and follow all laws regarding the possession of weapons. No sparring will be permitted in the convention. Balticon reserves the right to hold any weapons in violation until the end of the con. Failure to comply with this policy may result in the confiscation of your badge. Masquerade Costumers are excepted for the time spanning a half hour before the Masquerade to a half hour after the Masquerade.
